

Candidate Statement

JOHN I. TAYLOR

AGE: 58

Occupation: School Board Trustee, Educator, Businessman

As school board president for the past two years, I listened intensely to my constituents. The ability to listen and act allowed me to lead the successful efforts to get two bond measures passed resulting in several new state of the art schools for our children. I also led the effort to enlist the award-winning College Bound Hayward Program, which has served as the catalyst for raising our test scores while sending our students to the finest universities in the country.

If elected, I will work to revise the downtown loop that creates traffic nightmares. I will work to create more affordable housing as I successfully did as Director of Northern California Community Development. I will also use public and private partnerships with the Silicon Valley, our Universities and with labor organizations to create job training and career path programs. My wife and I have children and grandchildren in Hayward. We want them to have a thriving, economically prosperous city that responds to the needs of all. I respectfully ask for your support. Vote for me, John Taylor on June 7, 2016.
